

'Research is to see what everyone else has seen, and to think what no one else has thought.'

~Albert Szent – Gyorgyi (Nobel Prize in Physiology / Medicine in 1937)

The Extended Project Qualification affords students the opportunity to produce a research project on an area of interest that engages their interests and passion for learning beyond the curriculum. Students

take part in guided EPQ sessions to cover the main assessment objectives that they are being assessed against. There is a palpable research community the Sixth Form, with a supportive and inclusive approach towards achieving success.

U.S. ...

...

Identify, design, plan and carry out a project, applying a range of skills, strategies and methods to achieve objectives.

1T. ...

Research, critically select, organise and use information, and select and use a range of resources. Analyse data, apply relevantly and demonstrate understanding of any links, connections and complexities of the topic.

...

Select and use a range of skills, including, where appropriate, new technologies and problem solving, to take decisions critically and achieve planned outcomes.

...

Evaluate all aspects of the extended project, including outcomes in relation to stated objectives and own learning and performance. Select and use a range of communication skills and media to present evidenced project outcomes and conclusions in an appropriate format.
